8.7	Consideration of request of M/s Bayer CropScience Ltd., Mumbai for the endorsement of additional packaging of <i>Fenoxaprop-p-ethyl Technical</i> in bulk packs for import in FIBC (flexible intermediate bulk container) of capacity 360 kg and in plastic drum with capacity 120 kg.
	Approved.

8.8	Endorsement for changing the name of company from M/s VVK Traders Pvt. Ltd. to M/s Best Agrochem Pvt. Ltd. on the certificates of Registration in respect of M/s Best Agrochem Pvt. Ltd.
	The RC decided that a detailed agenda with justification may be brought in the next meeting.
8.9	Request from M/s Sumitomo Chemical India Pvt. Ltd. for endorsement of alternate pack/additional pack of <i>Bacillus thuringiensis var israelensis strain/serotype-H-14 AS</i> in 1.0 lit. & 5 liter capacity of HDPE containers for repackaging.
	Approved.
8.10	Request from M/s United Phosphorus Ltd., Mumbai for the endorsement of new/alternate packaging of <i>Metsulfuron Methyl 20% WP</i> in 8 gm capacity of trilaminated pouch with surfactant and without surfactant.
	Approved.
8.11	Request from M/s Sarswati Agro Chemicals (India) Pvt. Ltd., Jammu for the endorsement of new/alternate packaging of <i>Fenoxaprop-p-ethyl 9.3% EC</i> in Co-extruded HDPE containers of capacity 100 ml, 250 ml, 500 ml & 1000 ml.
	Approved.
8.12	Consideration of a request of M/s E. I Dupont India Pvt. Ltd., Gurgaon for endorsement of additional manufacturing site in the Certificate of Registration of <i>Chlorantraniliprole Technical</i>.
	RC deliberated the issue in detail and felt that stating the changed name of the source of import, approved at the time of registration, in the application without its proper endorsement by the RC was not correct. The endorsement regarding the current name of the source should have been obtained by the registrant before making this application. Therefore, this application may be placed before the Committee after completing the procedure for change in the name of already approved source in the certificate of registration.
8.13	Consideration of a request of M/s EI Dupont India Pvt. Ltd., Gurgaon for change in the name of the source approved in the Certificate of Registration of <i>Chlorantraniliprole Technical</i>.
	The applicant may be requested to clarify the queries raised on the application. Verification part may also be got completed by communicating with the regulatory authority of the country of source of import and placed before the Committee in its next meeting.

9.0	<u>MISCELLANEOUS ITEMS</u>

	Approved.
10.0	Online filling of application for registration under different categories.
10.1	Summary of disposal of case including case being taken up for the approval of Registration Committee.
	The Committee approved the applications for grant of registration under Section 9 (4) FIM/FI/TI, which are complete as per guidelines and for which MRLs have been fixed/partially fixed and not required as proposed in Annexure-10.1.1 of the Agenda.
11.0	Any other item with the Permission of Chair.
	None.

The meeting ended with the vote of thanks to the Chair.

Annexure- I**Consideration of the issues discussed during the Open House held on October 29, 2013**

S. No.	ISSUES RAISED BY THE ASSOCIATIONS	DECISION OF THE OPEN HOUSE	COMMENTS OF THE SECTT OF CIB&RC	DECISION OF THE RC
I. CHEMICAL PESTICIDES				
1	Harmonization of Toxicology studies Protocols with OECD	The job is complete except for exposure of spray operators calculations by using mathematical modules, which will also be completed shortly.	No comment except that it should be completed within the stipulated time.	Agreed.
2.	Additional Manufacturing Site(s) of Pesticides in Countries other than the Original Registered Source	RC has already taken a decision on this issue and framed guidelines. A few registrants have obtained endorsements in this regard following the same guidelines. In case, an applicant wants to register more than one manufacturing site at the time of application, itself, he has to undergo the rigours of the same guidelines as in case of endorsement of additional manufacturing site. However, some members feel that this should be done only after one site is registered under section 9(3).	The Committee may take a decision as to whether Additional Manufacturing Site(s) of Pesticides in Countries other than the Original Registered Source should be registered simultaneously at the time of registration or after the registration of one site under Section 9 (3).	It should be allowed only after registration of one site under section 9(3).

3.	Curbing of illegal imports	The House expressed its serious concerns about illegal imports and emphasized the need to curb it. It accepted the proposal of the industry with modification and decided that a copy of valid registration and manufacturing license of the product be made mandatory alongwith every consignment to ensure that the product is coming from the approved source.	The decision of the open house may be enforced through a condition in the certificate of registration of the product in import cases.	Agreed.
4.	Bio-pesticides laced with chemical pesticides(registered or un-registered)	The Chairman, RC will send a letter to all the APCs/Directors of Agriculture in this regard. Industry on its part would also facilitate exposing illegal trade in bio-pesticides/bio-products, laced with registered or non-registered pesticides.	May be agreed. Establishment of National Pesticides Investigational Laboratory (NPIL) and National Pesticides Reference Repository (NPRR) may also be expedited by DAC.	Agreed.
5.	Data requirement for TIM vs TI u/s 9(3) – Anomaly/Discrepancy in Past and Present Guidelines	It was once again made clear to the industry that whenever a comparison is drawn, establishment of chemical equivalence was necessary. The guidelines under TIM vs TI or TI vs TIM are intermediary guidelines, which are meant to facilitate registration of imported or manufactured products to be registered for manufacture or import, respectively. This way, same chemical	The clarification given in the open house may be adopted as the decision of the RC in this regard.	Agreed.

		composition percolates down the line upto 9(4) category. In case, different chemical composition is claimed, independent guidelines for registration under 9(3) TI or 9(3) TIM are available.		
6	Guidelines for registration of combination formulations containing more than two a.i.	It was clarified that if individual active ingredients were non-mutagenic, their combination is also likely to be non-mutagenic. It was decided that cases for such combination formulations mutagenicity data may not be asked at the time of registration.	The decision of the open house may be adopted by the RC.	Agreed.
7.	Sub-acute toxicity in dogs.	It was decided to accept international data in such a case.	The decision of the open house may be adopted by the RC.	Agreed.
8.	Metabolism in livestock	It was decided that data on this requirement may be got generated abroad, if facilities did not exist in India. However, this requirement cannot be exempted. Efforts may be made by some reputed institutions to develop such facilities in India too.	The decision of the open house may be adopted by the RC.	Agreed.
9.	Non availability of on line application facilities for some of the old molecules.	The House was informed that necessary measures are being taken for updating information.	Updation may be done within a time frame to facilitate on-line applications for registration of such molecules.	Agreed.

10.	Delay in scrutiny of 9(4) FIM, TI and FIT categories	The House was informed that necessary measures are being taken to expedite the scrutiny of the cases under these categories and about 700 – 800 CRs are being approved by RC in its each meeting. However, due to large number of inflow of applications, this problem is persisting. Industry Associations were requested to reduce submission of application.	The members of the pesticide industry may make need-based applications for registration under 9(4) FIM, TIT and FIT categories.	Agreed.
11.	Crop grouping approach of MRL setting	It was clarified that a Committee was constituted by DAC under the Chairmanship of Dr. T.P. Rajendran, ADG (PP), ICAR specifically with respect to fixing MRLs. Implementation of its recommendations has also to be specified. More discussion is needed on this aspect.	RC may await a final consensus on this issue before accepting adoption of this approach.	Agreed as proposed by Sett. of CIB&RC.
12.	Verification of source	It was decided that the existing policy of the RC shall be maintained. CropLife India pointed out that in case of EU countries, individual country may not have registration, which may find difficulty in verification. It was decided that in case of specific problem, it shall be looked into on case-to-case basis.	The decision of the open house may be adopted by the RC.	Agreed.

13.	Issuance of deficiency letters by e-mail	Efforts are being made to implement the decision. However, an appeal was again made that all the applicants may submit their e-mail addresses along with applications for effective implementation.	Enough notice has been given for obtaining e-mail addresses. Once the Sectt is fully equipped, it will be implemented.	Agreed as proposed by Sectt. of CIB&RC.
14.	Analysis of in-process samples for Pre-registration Verification	It was clarified that there is no delay in analysis of in-process samples.	This is for information of the Committee.	Agreed.
15.	Guidelines on import of samples for Research, Test & Trial purposes	Import permits for Research, Test & Trial shall continue to be issued as in vogue.	The decision taken in the open house may be adopted by the RC.	Agreed.
16.	Accelerated storage stability test	The existing decision of the RC shall remain in force.	The decision taken in the open house may be adopted by the RC.	Agreed.
17.	Invoice from manufacturers	The existing decision of the RC has been taken after considering all the factors. Therefore, it shall continue to be in force. In case there is a specific problem for a specific molecule globally, the same shall be brought to the notice of the RC for taking an appropriate decision.	The decision taken in the open house may be adopted by the RC.	Agreed.
18.	Registration for export	A committee, constituted for the purpose, is seized of the problems on the issue. Its report may be awaited.	RC may await the report of the Committee, constituted for the purpose.	Agreed.

19.	Issue of holding two certificates for the same product	The House reiterated RC's decision that no person shall hold two certificates of registration for the same product under the same category and submission of affidavit with every application shall remain in force.	The decision taken in the open house may be adopted by the RC.	Agreed.
20.	Unique code Number for 9(4) registration	It was informed that introduction of assigning unique code no. for each applicant may not be possible with the existing software system. NISG is looking into the matter. As & when new software is developed, this will be taken care of. Till that time, existing system shall continue.	The decision taken in the open house may be adopted by the RC.	Agreed.
II BIO-PESTICIDES				
1	Request for fourth extension of validity period of the registration under section 9(3 B)	It was emphasized that there was enough time available from the time of application under Section 9 (3B) to the completion of 3 rd extension to generate complete data for making application under Section 9 (3). However, there seems to lack of will to do so. Therefore, the House did not agree to the request of the association and reiterated the existing decision of the RC in this regard.	The decision taken in the open house may be adopted by the RC.	Agreed.

2.	Request for fixation of date for organizing workshop on Bio-pesticides.	The House noted that the association(s) failed to rise to the occasion and did not organize the workshop, which was in their own interest. The House decided that the workshop may be organized on priority by the Association of Biopesticides Manufacturers.	The decision taken in the open house may be adopted by the RC.	Agreed.
3	Mention of 'Biopesticide' in the Certificate of Registration	It was decided to write 'biopesticide' in bracket after name of product (biopesticide) in CR.	The decision taken in the open house may be adopted by the RC.	Agreed.
4	Once one strain of a biopesticide is registered, then subsequent applications be scrutinized on priority.	Affidavit signed by all the Association of biopesticides manufacturers to this effect be submitted stating that they have no objection if it is implemented at the cost of other strains.	The decision taken in the open house may be adopted by the RC.	Agreed.
5	Guidelines for registration of combination of two registered bio-pesticides	The House did not agree on the issue, such combinations are also not registered globally.	The decision taken in the open house may be adopted by the RC.	Agreed.
6	<p>(a) Resubmission of failed samples of bio-pesticides to CIL for reanalysis</p> <p>(b) Reconsideration of moisture content, pH range and delta-</p>	The House noted that associations had varied views on the issues related to moisture, pH, delta endotoxin contents (Bti and Btk products), etc. in bio-pesticides. Therefore, these should be looked into by an Expert Committee. Accordingly, an Expert Committee has been constituted to look into these issues	Now that Shri Subhash Chand, Assistant Director (Chem.) has been assigned the work of biopesticides registration, it is proposed that he also be considered as the Member of the Committee.	The Committee decided to add following officers as member in the Expert Committee, in addition to proposed in Open House. 1. Dr. P. K. Chakrabarty ADG (PP), ICAR.

	<p>endotoxin as test parameters from the guidelines</p> <p>(c) Relevance of percentage in biopesticides alongwith formulation one CFU is mentioned.</p> <p>(d) Minimum infrastructure facilities.</p>	<p>under the chairmanship of Dr. Mukhopadhyay, VC, AAU, Jorhat the other members being:-</p> <ol style="list-style-type: none"> 1.
