The Chairman welcomed all the participants and thereafter, requested the APPA & Secretary (CIB&RC) to take up the agenda, item-wise, for discussions.

Each issue was deliberated in detail and following decisions were taken by the RC:-

| Agenda item No. | Particulars of Agenda |
|------------------------|---|
| 1.0 | Confirmation of minutes of the 343rd meeting of the Registration Committee. |
| | The Minutes of 343 rd Meeting of the RC were confirmed with slight modification with regard to requirement of International Data on sub-acute toxicity study on dog in respect of which the Committee decided that any peer reviewed published data/information shall be acceptable. |
| 2.0 | Follow up action on the decisions taken by the Registration Committee in its 343rd meeting. |
| | The Committee noted the action taken by the Secretariat with satisfaction. |

| | |
|------------|---|
| 2.1 | Applications pending under various sub-sections of the Insecticides Act, 1968. |
| | Noted with satisfaction. |
| 2.2 | Presentation M/s Bayer CropScience Ltd., Mumbai for grant of registration for indigenous manufacture of Tebuconazole 5.36% FS under section 9(3). |
| | M/s Bayer CropScience Ltd., Mumbai clarified the query raised during the 343 rd Meeting held on 28.11.2013. After detailed deliberation, RC approved the same for use against loose smut in Wheat crop. |
| 2.3 | Presentation M/s Syngenta India Pvt. Ltd., Pune for label expansion of Metalaxyl-M 31.8% ES. |
| | M/s Syngenta India Ltd., Pune clarified the query raised during the 343 rd Meeting, held on 28.11.2013. After detailed deliberation, RC approved the label expansion as proposed in Agenda of the said meeting. |
| 3.0 | <u>Government Business</u> |
| 3.1 | Evaluation of the recommendation Committee for the existing procedure/guidelines/requirements for registration of pesticides for export with a view to simplify/expedite the process without compromising on legal and technical requirements. |
| | After deliberations at length, the Committee did not accept registration for import of pesticides under Advanced Authorization Scheme under any category due to several implications including likelihood of diversion of imported product into domestic market. Under Toxicological requirements, Sr. No.11 of Table 4 (a) is deleted in view of the fact that this information is required to be given on the leaflet as per Rule – 18 of the Insecticides Rules, 1971. The Committee accepted the rest of the recommendations with a few modifications. Accepted recommendations are placed at Annexure-I . |
| 3.2 | Follow up action of Dr. C.D. Mayee Committee Recommendations on Pendimethalin. |
| | The recommendations on Pendimethalin are required to be referred back to the study director to ascertain the implication of the result of their study in pisciculture associated with rice cultivation. Pendimethalin has shown histopathological alterations in various organs of test fish at all the three locations tested. The Committee also decided to refer the data to Dr. S. Raisuddin, Professor & Head, Department of Elementology and Toxicology, Jamia Hamdard, New Delhi-110 062 and Dr. S. K. Nag (Toxicologist), Principal Scientist, Central Inland Fisheries Research Institute, Barrackpore, Kolkata – 700 120 for comments to ascertain the implication of the result of the study in pisciculture associated with rice cultivation. |
| 3.3 | Verification of Testing Facilities for Generating and Accepting Data for the purpose of Registration of Pesticides. |
| | The Committee while agreeing to the suggestions of the Secretariat regarding accepting the toxicity data generated by the GLP Certified laboratory also decided that all the toxicological studies need to be accompanied by the GLP Certification by the Study Director and Quality Assurance (QA) Certificate by QA Unit of the lab. This shall be applicable to the studies which shall be initiated on or after April 1 st , 2014. The data from ongoing studies shall be acceptable as per existing norms. |

| | |
|------------|---|
| 3.4 | WP No.22380 of 2012 in the matter of M/s Shogun Organics Ltd. Vs Union of India & Others in the High Court of Kerala |

The meeting ended with the vote of thanks to the Chair.

Annexure-I

RECOMMENDATIONS (R) & THEIR ACCEPTANCE (A) BY THE RC

I. GENERAL

- R. The accreditation tenure of Star Export Houses shall be for a period of three years and its renewal shall be done through the relevant format-based application and this process could be undertaken electronically(on-line), as an administrative process of the RC Secretariat.
- A. Agreed. The accreditation of Star Export Houses shall be on the same basis as that of the Ministry of Commerce and the fee shall also be charged accordingly. e-applications would, however, be possible after development of the relevant software.**
- R. The Registration Committee should have an automated process for generation of certificates/label & leaflets similar to the existing process of 9(4) certification especially for products applied under proposed Category IV (presently known as Category III).
- A. Not agreed. Automated process for generation of certificates/label & leaflets similar to the existing process of 9(4) certification for products applied under the relevant category (proposed Category IV) is not feasible as the ingredients and their proportion in the chemical composition in case of export applications vary in each case, whereas the basis for 9(4) is 9(3) and has to be identical.**
- R. Registration cases under proposed Category IV (presently known as Category III) can be disposed off at the level of Secretary, CIB&RC and the list to be put up to RC in subsequent meeting for post-facto approval as already being followed in the cases of Star Export and import permit.
- A. Partially agreed. As the registration is the mandate of the RC, its approval and issuance shall continue in the similar manner as at present. Only the registrations under Star Export House category shall be very specific exception.**
- R. Approval timelines for issuance of export certificates to be on time bound basis – one month for the already registered category and 1-3 months for non-registered products and fifteen days for Star-Export Certificates for registered category and one month for unregistered category.
- A. Agreed. The times lines for export registration under already registered category in case of complete applications shall be on RC-to-RC basis, wherein the applications received till the date of closing of agenda shall be considered in the ensuing meeting. The period for unregistered products shall be three months as the applications are also to be examined from toxicological angle. The period for registration under Star Export House category shall be a fortnight from the date of receipt of applications.**
- R. The Technical substance(s) and their formulations which have already been approved once by the RC exclusively for exports, these should be included in the proposed Category IV (presently known as Category III) for subsequent registrations exclusively for exports.

- A. Agreed. However, it would be possible to commence it after development of proper database and related software with respect to Certificates of registration and Labels & Leaflets.**
- R. In case the product is registered for domestic use, a condition in the certificate of registration can be stipulated as “In case the product is to be exported, the primary packaging may be as per the requirement of the importing country”.
- A. Agreed. However, the condition shall be reworded as under:-**
- “In case of the consignments of the product for export purpose, the primary packaging may be as per the requirement of the importing country”.**
- R. Deficiencies may be communicated to the applicant through E-mail.
- A. This would be adopted in case of applicants providing e-mail ids in Form-I in Cl. 1 under the address as the additional information.**
- R. Minor corrections; e.g., in label and leaflets etc., may be allowed to be done by authorized company representatives in person in the presence of expert.
- A. Agreed.**
- R. The Committee noted the necessity of suitable clearance in regard to affirmation that the microbial substance to be exported is not a Biological Weapon (BW). Further the commercialisation of material of botanical origin including for export is guided by the Biological Diversity Act, 2002. To take care of the requisite compliance of other relevant Acts and Rules thereon in this context, the Committee recommend that if the Registration Committee feels, may incorporate a suitable condition in the Certificate of Registration if not already done.
- A. Accepted. A condition in case of Microbial Biopesticides and Botanical Biopesticides, respectively, shall be incorporated in the certificate of registration as under:-**
- “The product being exported is not a biological weapon”. Or**
- “The product being exported is in compliance of Biological Diversity Act, 2002.”**
- R. It is recommended to evolve the mechanism to maintain the list of exporters company-wise, product-wise and country export-wise. The share of Star-Export Houses in total export should be determined for future guidance.
- A. Agreed. However, implementation of this recommendation require amendment in the relevant provision(s) of the insecticides Rules, 1971 making it mandatory for the registrants to provide export-related information, like the list of exporters company-wise, product-wise and country export-wise. This would also facilitate in determining the share of Star-Export Houses in total export.**
- R. There should be Standing Expert Committee to review/analyse the use and misuse of pesticides in terms of ethics and health, environment, ecology & economy securities.
- A. Agreed.**

II. SPECIFIC

Guidelines for Registration of Pesticides Exclusively for Export

(Refer to Categories at (A) and Requirements at (B) Mentioned Below)

(A) Categories of Pesticides for Export Registration

Category – I

Agreed as reworded hereunder:-

“Import of technical grade pesticide, which is not registered for manufacture /Import and use in India, for the sole purpose of Export either as technical itself or after converting it into formulation(s).”

Category – II

Not agreed as recommended as a product already registered for use in India cannot be permitted to be imported from an unapproved (new) source as the chances of its diversion into the domestic market cannot be ruled out, which would not be in the interest of safety besides efficacy issues. The recommendation is accepted after rewording as under:-

“Import of technical grade pesticide, which is registered for manufacture/Import and use in India, for the sole purpose of Export either as technical itself or after converting it into formulation(s). Import under this category shall be permitted only from a source approved by the Registration Committee.”

Category-III

Agreed as proposed:-

“Indigenous manufacture of technical grade pesticide, which is not registered for use in India.”

Category – IV

Agreed as reworded hereunder:-

“Indigenous manufacture of pesticide [technical grade with same or different impurity profile or formulation(s) of same, lower or higher concentration with same or different adjuvant including new type of formulation(s)] already registered for use in India (without altering the active ingredients) for the sole purpose of export.”

Category - V

Agreed as under:-

“Indigenous manufacture of new pesticide formulation(s), not registered for manufacture and use in the country, for the sole purpose of export.

In case of formulation made from technical grade pesticide, which is not registered for use in India, separate application for import/manufacture of technical grade pesticide is also required to be submitted.”

Category – VI

Agreed with slight modification as under:-

“New combination pesticide formulation, not registered for use in India.

In case of unregistered technical grade pesticide(s), separate application(s) is required to be submitted for registration thereof.”

Category – VII

Agreed with slight rewording as under:-

“Import of new formulation of pesticide (not registered for import/manufacture and use in India) for the sole purpose of export. (In case of formulation made from technical which is registered for use in India, import from approved source of technical only).

Category – VIII

Agreed with slight rewording as under:-

“Indigenous manufacture of registered/unregistered formulation of microbial biopesticides.”

Category –VIII (a)

Bio-pesticides: non-Bt & Bs based

Category –VIII (b)

Bio-pesticides: Bt & Bs based.

Category IX

Agreed as proposed:-

“Indigenous manufacture of bio-pesticide--Botanical - technical/ formulation (registered/unregistered).”

Important Note

Import for Export is to be allowed under only Advance Authorization Scheme, the following additional / modified conditions shall apply:

1. No supply to domestic market under any circumstances, even with payment of duty and penalty.
2. Product once exported will not be brought back to the country
3. Supporting manufacturer/ sub-contractor and deemed export shall not be permitted.

This important note should be incorporated as one of the conditions in the Certificate of Registration granted under category I, II & VII of the proposed guidelines.

“Important Note” – Not Accepted and, therefore, Dropped being not necessary in view of non acceptance of Advanced Authorization Scheme.

- i) From the reviews undertaken by International organization/institutions like WHO, Joint bodies of FAO/WHO, International Registry for Potential Toxic Chemicals (IRPTC), International Agency on Research on Cancer (IARC), etc.
- ii) Any evaluation / Fact Sheet by Registration authorities of USA or EU or Canada or Japan including Material Safety Data Sheet shall be accepted. Information from other reliable sources including TOXNET, EXTONET can be provided.

+ If published information is not available data are to be submitted

++ The calculations using WHO formula for conversion of acute LD50 values of technical grade pesticides (which are components of a combination product) into the predicted acute LD50 value of that combination shall be applicable provided the information/data on the technical grade pesticide are available on the same species.

+++ Data requirement for category-I additionally will be required.

Regd.@ = The product containing the strain registered by Registration Committee.
