**PUBLIC NOTICE**

With a view to facilitate export of pesticides from India, the applications received for issuance of Certificate of Registration exclusively for Export are being processed through online system now. During the technical scrutiny, it has been noticed that in most of the cases, the scanned/ PDF labels submitted with the online applications are in grey color including the toxicity triangle (in black & white) and thus are required to be prepared by CIB&RC resulting in delay in issuance of certificates. Therefore, all such applicants are advised to submit colored scan copy of the label and also incorporate the specific cautionary note, if any, in the PDF label, so that the process of registration for export can be further expedited.

Further, it is also noticed that the reply to the deficiencies sent through the online system are being submitted in hard copies (Off line). Hence, it is also requested that the reply to the deficiencies sent through online (pertaining to applications for export registration) must be submitted only through the online system. In the absence of online deficiency response, the Secretariat of CIB&RC will not be able to process such applications even if the off line reply is submitted.

(D.D.K.Sharma)

APPA& Secretary CIB&RC
